

Indicator Light Transformer

LH 93

Without lamp or lens accommodation, this self-contained transformer indicator light can be used in conjunction with the LH97 lampholder. The LH93 power transformer unit has been tested and approved for dielectric withstanding voltage, moisture resistance, voltage regulation, temperature rise, shock, vibration, visual and dimensional.

Application with 50, 60, or 400 Hz A.C. systems.

This unit is available in different primary voltage ranges from 12 VAC (LH93/1); 26 VAC (LH93/2); 117 VAC (LH93/3); 450 VAC (LH93/4) with secondary voltage at 1.8 VAC.

Dimensions (Approx.)
